DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 9, 10, 15-18 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Ferguson et al. (US 3,210,067). The reference discloses a control for a door operating vehicle wherein the capacitor is discharged to the motor while keeping the motor from driving the wheels to operate the doors. See column 7, lines 1-20.

Allowable Subject Matter

Claims 3-8, 11-14, 19, 20 and 22-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 11/2/2006 have been fully considered but they are not persuasive. Applicant argues that the motor still drives the wheels when the capacitors are discharging. However, column 7, lines 7-15 states that the relay will energize until the door (or wheels) is at a fully closed position. At that time, the relay is

Art Unit: 2838

de-energized (meaning the wheels don't move), the switch is closed to discharge the capacitor to complete the cycle. Therefore, the capacitor is discharged without driving the wheels.

Moreover, it can be argued that the vehicle could be placed in the 'PARK' position so the wheels would not moved when the capacitors are discharged to the motor because there would not be enough torque to overcome the vehicle in the 'PARK' position. Hence wheels don't move.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
